

Our Purpose: Building lives free from Modern Slavery and Exploitation (MS&E)

Our Impact Goals are:

Better systems, structures, and practices that reduce the risk of slavery and exploitation.
Strong, effective organisations working with victims, survivors, and those at risk.

We will support:

- Initiatives which tackle the systems that negatively impact the lives of people affected by modern slavery and exploitation.
- and
- Whose work aims to prevent exploitation, support victims and survivors, and restore lives.

We prioritise working with organisations that:

- Help to protect people who are on the move.
- and/or**
- Safeguard women and children.

And who are working towards these key outcomes:

- Legal, policy, and practice reform to help prevent slavery and exploitation, and protect victims and survivors.
- Supporting victims and survivors to rebuild their lives and reduce the risk of re-trafficking/re-exploitation.
- Supporting people who are highly vulnerable to exploitation and slavery to help prevent them from becoming victims.

Through our role as a grantmaker, we...

Like to fund important work that might otherwise struggle to attract funding.

Focus on tackling the root causes of social and environmental problems to promote long term change.

Make grants in the form that works best for each individual organisation, balancing unrestricted, core, and project funding.

Offer multi-year grants to help organisations plan for the future.

Will collect and record the information we need to understand the difference our funding makes.

Will build positive, trusting relationships with grantholders; ensuring we learn with and from them.
